

Possession

Burning Witches

Are you ready for a mission?
Its gonna be a hard and heavy ride
Be a part of my possession
Be my wild, rebellious bride

You'll be mine for the night
Turn away from the light

Are you ready for a mission?
I'll bring you to an unknown place
Be a part of my possession
I'm from outta space!

We're having a hard and heavy ride
You lead me fast across the town into the night
You are like a rough and deadly guide
And I will follow you till death and all my life
Possession

From that moment on you're sitting behind my back
Your life will never be the same
It feels like we can live forever
In this neverending game

You'll be mine for the night
Turn away from the light

We're having a hard and heavy ride
You lead me fast across the town into the night
You are like a rough and deadly guide
And I will follow you till death and all my life
Possession

Into the dark

We're having a hard and heavy ride
You lead me fast across the town into the night
You are like a rough and deadly guide
And I will follow you till death and all my life
Possession

Into the dark
Into the dark
Possession
