

## Save Me

## Burning Witches

Your perfect world, you need to know  
Will burn down, to ashes and glow  
Your perfect world, oh realize  
Existed no longer, the fear pervades your eyes

You're like a demon in my brain  
Makes me become insane

You bring agony, distress and pain  
In this world, so fragile and weak  
With every infested word you speak  
You're like a demon in my brain, you put me in chain

My soul is dying day after day  
Ready to take your part?

Save me, be brave for me  
You occupy me in so long  
So that's my last song of lamentation

You bring agony, distress and pain  
As long you kill, as long you capture  
As long you breath, as long you live  
You're like a tumor in my brain, you put me in chain

My soul is dying day after day  
Ready to take your part?

Save me, be brave for me  
You occupy me in so long  
So that's my last song, coz I am

Broken from within  
Broken from within  
Broken from within  
Broken inside  
Broken from within  
Broken from within  
Broken from within  
Broken inside

My soul is dying day after day  
Ready to take your part?

Save me, be brave for me  
You occupy me in so long  
So, save me

You bring agony, distress and pain
