

# Threefold Return

## Burning Witches

For threefold return  
For threefold return

A crowd is raging  
They will be paying  
For the crime that's going down  
A witch is taken  
To the stake  
To the dark parts of the town

With every step she has taken  
She brought millions reason to live  
With injustice, she's shaken  
And calls the corners sure

For threefold return

Only goodness  
She was bringing  
To the people gathered round  
She's found guilty  
Her healing powers  
Must be devilbound

With every step she has taken  
She brought millions reason to live  
Her best, the witch has given  
At a wink, it's all dismissed  
With injustice, she's shaken  
Decay has taken the pure  
Now she's calling the corners  
Of the earth

For threefold return  
For threefold return

Take heed of the law  
Of threefold return

With every step she has taken  
She brought millions reason to live  
Her best, the witch has given  
At a wink, it's all dismissed  
With injustice, she's shaken  
Decay has taken the pure  
Now she's calling the corners  
Of the earth

For threefold return  
For threefold return  
For threefold return
