

We Stand As One

Burning Witches

Do you feel the chill of the night?
Creatures ready to come out, electrify
So are you ready for tonight
Cause tonight will be alright
Yeah!

Tonight my friends we stand as one (One)
Loud and fast is what we want
We stand as one

Feeding fires all around us burning
Feeling free and running wild yeah
So for tonight we fight
It's our adrenaline ride
Hold your horns up high
Hear our battle cry

Tonight my friends we stand as one (One)
Loud and fast is what we want
We stand as one

Heavy metal is our way! (Yeah)
Loud and fast is what we want
We stand as one
It is written in our DNA
No compromising cause it gets in our way

Tonight my friends we stand as one (One)
Loud and fast is what we want
We stand as one

Heavy metal is our way! (Yeah)
Loud and fast is what we want
We stand as one
Oh oh oh oh
Oh oh oh oh
We stand as one
