

# Adrenaline

Bury Tomorrow

Please return to us, restart the fire inside  
I remember clear as day, when the spark left your eyes

Do you feel alive? Our life to prove, one chance defined  
Side by side, we walked, no fear of time

Find strength, our roads collide  
Find strength, our roads collide

Do you feel alive?  
Our life to prove, one chance defined  
Side by side  
We walked, no fear

Take hold, it's flowing through your senses  
Can you feel it, the rush it gives?  
Let go, discover what you're here for  
We feel it, adrenaline

Run  
Let the blood flow, make the veins show  
And hold  
Onto your nerve, in their face you'll need the right words  
Let the blood flow  
Let the blood flow  
This will make your heart stop

This is where your heart stops

Take hold, it's flowing through your senses  
Can you feel it, the rush it gives?  
Let go, discover what you're here for  
We feel it, adrenaline

Please return to us, restart the fire inside  
I remember clear as day, when the spark left your eyes

Do you feel alive?  
Our life to prove, one chance defined  
Side by side  
We walked, no fear of time

This is where your heart stops
