

## Cold Sleep

### Bury Tomorrow

As the dusk sets in I find that I'm trapped  
Inside the pale state, reality snapped  
I'm really not sure how long I've been like this  
To realise nothing I do will effect it

Messages in dreams  
Take me far from here  
Drifting from life  
I disappear  
Messages in dreams  
Take me far from here  
Drifting from life  
I disappear

My world is upside down  
Cold sleep is all I've found  
Pressing on my chest and I can't speak  
I am so weak

As a light in the dark I drown  
Consumed by what's around  
Like a man in the fog I ran  
Forgetting all I can

Slow it down, slow it down  
Let me catch my breath  
Slow it down, slow it down  
No end to this rest  
Will the night ever end, will the sands ever stop?  
All I know right now is I need to wake up  
Wake up

Messages in dreams  
Take me far from here  
Drifting from life  
I disappear

My world is upside down  
Cold sleep is all I've found  
Pressing on my chest and I can't speak  
I am so weak

As a light in the dark I drown  
Consumed by what's around  
Like a man in the fog I ran  
Forgetting all I can

It's nothing  
It's nowhere  
It's darker than night  
It's frozen air

Nothing  
Nowhere  
It's darker than night  
It's frozen air

My world is upside down  
Cold sleep is all I've found  
Pressing on my chest and I can't speak  
I am so weak

As a light in the dark I drown  
Consumed by what's around  
Like a man in the fog I ran  
Forgetting all I can
