

Recovery?

Bury Tomorrow

Faded out before, trapped in this world devoid of action
Condemned as a ghost
Your words are seen through

You see their faces and they really don't know
Hiding those feelings that should have been on show
Your skin's on fire, I feel it, it's hot to the touch
A mind like a knife, the thoughts are the cuts

You don't have to be alone in your hell
The others you long to be have fallen as well
A line is drawn and now you know yourself
The scars that you wear, they're a sign of your strength

Faded out before, trapped in this world devoid of action
Condemned as a ghost
Your words are seen through
(Down)
Descend alone
(Found)
The next unknown
Just one more step, I don't recover

We set a fire when we chose to walk away
We let our souls run alone, finding faith in misery
So sick of feeling invisible in a world demanding proof
They say that knowledge is power but they're not ready for truth

Faded out before, trapped in this world devoid of action
Condemned as a ghost
Your words are seen through
(Down)
Descend alone
(Found)
The next unknown
Just one more step, I don't recover

What do they expect from you?
Reflecting dishonesty
Shrouded to hide your shame
Trapped you are never free

What do they expect from you?
Reflecting dishonesty
Silence has seen you through
What is recovery?

I don't recover
What is recovery?

What do they expect from you?
Reflecting dishonesty
Silence has seen you through
What is... recovery?

Faded out before, trapped in this world devoid of action
Condemned as a ghost

Your words are seen through
(Down)
Descend alone
(Found)
The next unknown
Just one more step, I don't recover

I don't recover (I don't recover)
I don't recover (I don't recover)
