

# Under The Sun

**Bury Tomorrow**

Let them hear us, let it be heard  
Our bond will never be broken  
No roads abandoned, no bridges burned

So follow us home  
Our brothers won't die alone  
The future is ours to make it our own

Another year and the world keeps turning  
No money could buy the lessons we're learning  
This family stands strong, to overcome it all  
And we will never divide, never divide  
Never divide the solid lines  
Be proud of the choice of taking this side  
Living out our lives

WE ARE THE BRAVE  
WE ARE THE BRAVE

I feel that this is where we rise  
Together looking for the light  
It seems so clear to me now that we are, under the sun  
I see us moving further on  
The path that we first came upon  
It seems so clear to me now that we are, under the sun

With our hands on our hearts  
And our heads to the sky, heads to the sky  
We stand as one, until we die

WE ARE THE BRAVE  
WE ARE THE BRAVE

We will not abandon  
No man left unsaved  
Forever as one, nobody forgotten  
We are the last of the brave

I feel that this is where we rise  
Together looking for the light  
It seems so clear to me now that we are, under the sun  
I see us moving further on  
The path that we first came upon  
It seems so clear to me now that we are, under the sun

We seek no glory in vain, we are the last of the brave  
We seek no glory in vain, we are the last of the brave
