

# I been there

Busdriver

Uh, yo, it's like  
I been there  
Already know it  
I been there, yeah  
Uh, yo  
I been there, yeah  
Already know it  
I been there, yeah  
Already know it, yeah  
Yes

I was always extra crisp [?] with the French kiss  
The mass exodus to the next abyss  
I pushed that sex bliss to the precipice  
And now we share that bunk bed  
But that goes unsaid  
[?] machine read that raised me well  
Most likely to go straight to hell  
Straight from K to 12  
Then unschool new new [?] got that new baby smell  
But you don't like how I respond to that safety bell  
You greet us, I'm leaping out the brush  
You said to keep it quiet but I can't keep it a hush  
I'm blushed, read it out aloud the royal flush  
My vanity plate now reads "deez nuts"  
But don't count the ring on my team's tree trunk  
We pulled them all-nighters so you know me from my coffee breath  
We can time travel with our body weight  
You know I got the one fifty volts when you asked me for the [?] results

I been there before  
I been there before  
I been there before  
And trust me you don't wanna be where my heart done been  
Oh no, no, please don't go there  
I been there before  
I been there before  
I been there before  
I been there before  
I been there before  
And trust me you don't wanna be where my heart done been

Uh, I'm the center of a dead moon  
With a [?] on the wet spoon [?]  
We run through traffic and rush [?]  
Philosophical debates with Archibald  
Asking if the art is raw  
[?] if there's no original styles  
In your cynical trials  
Then clearly, man, it's hard to call  
And I ignore you just like [?] would  
You're only here because the morning wood is like sporting goods  
I cram the love yous into the sound cannon  
Now my progress reports are all outstandin'  
But you don't love me girl, 'cause I observe planets  
Like one turns granite and learns Spanish

I been there before  
I been there before  
I been there before  
And trust me you don't wanna be where my heart done been

Yo, yo  
Yo, yo  
I've been there before  
I've been there before
