

Alien Language

Bush

All the light around the world
Went out once I signed my name
You would see she'd untie me
To the best time of my life
I would say she could be
So mercenary she
Said she won't love me from any day
Any day, any day forward

Alien language
Words don't mean a thing
In this
Alien language
The future will do you in

So we failed to make the grade
Now the trial's on parade
And the turbulence is relentless
It's relentless
You need to know my love is strong
But I know that you've been gone
You've been speaking such a long time
Such a long time

Alien language
Words don't mean a thing
In this
Alien language
The future will do you in

This love on a wasteland
This love on a wasteland

Alien language
Words don't mean a thing
In this
Alien language
The future will do you in

Alien
Alien
Alien

This love on a wasteland
This love on a wasteland
