Bush

Well the satellite comes and goes  
We give each other all we know  
In silence we still talk  
By the light of the stereo waltz  
And will you rain down  
In your cinematic love truck  
I want to hold you like nothing's going to stop us

She come to take me away  
Its all that i needed  
I don't breathe another lover, yeah

Flicker on a tv screen  
Everything's more than it seems  
The mighty backward fall  
Stare at the light on the wall  
I swear to this  
She felt like velvet  
Second blond child she meant it

She come to take me away  
Its all that i needed  
I don't breathe another lover, yeah

I'm an alien  
You're an alien  
It's beautiful rain  
Beautiful rain  
Beautiful rain  
It's a beautiful  
It's a beautiful

She come around again  
She come around again  
She come around again

She come to take me away  
Its all that i needed  
I don't breathe another lover, yeah

I'm an alien  
You're an alien  
It's beautiful rain  
Beautiful rain  
Beautiful rain  
Alien, alien, alien,alien
