

## Bubbles

Bush

Got all these days to alleviate  
Got all these ways to bend me straight  
It's a shitty life just to bring you down  
You'd still be young  
Where did this life go  
Don't twist the face of authority  
He sucked the life outside of me

She's forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left to gain  
Forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left to gain

Bubbles

Deconstruct your modern fable  
Homogenize your stake laid angel  
Stop feeding me interpretation  
We're real sick sick sick  
We watched it created  
Happy to hang out minority  
Outside or inside all of me

Forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left to gain

Forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left

She's forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left to gain

Forever blowing bubbles all the way  
There is nothing left to lose  
There is nothing left
