

Crossroads

Bush

There are no mistakes
When you reach for the lights
If you want the best
Don't think twice

We been around the world
On broken glass
All we knew was to go so hard

We searched for the bright lights
In and out the stars

I'm at a crossroads
Better figure out where I go
In and out of the slow mo
They shoot your life from a drone now

I'm at a crossroads

All that I know
All that I know
All that I
All that I know
All that I know

There are no accidents
We choose where we go
Drown me in your love
Watch me as I go

I'll be free and you'll be too

We lost ourselves to make it through
We searched for the bright lights

In and out of the stars

I'm at a crossroads
Better figure out where I go
In and out of the slow mo
They shoot your life from a drone now

I'm at a crossroads
Better figure out where I go
In and out of the slow mo
They shoot your life from a drone now

I'm at a crossroads

All that I know
All that I know
All that I
All that I know
All that I

All that I know
All that I know

All that I
All that I know
All that I

I'm at a crossroads
Better figure out where I go
In and out of the slow mo
They shoot your life from a drone now
They shoot your life from a drone now

Shoot you from a drone
Shoot you from a drone
Shoot you from a drone
Shoot you from a drone

Crossroads
