

Don't Be Afraid

Bush

All the freaks came out to play
The list of injuries
Echoes in the mind's delays
I've seen you try to climb
One foot out the rain
Be my everything
You be Lois Lane

Stop lights
Don't think twice
About your rights
Stop lights
Don't think twice
About your rights

Don't be afraid
It's just the carousel of light and shade
Maybe I have never loved before
Maybe I'm the wolf that wanted more

Built a world
I can't escape
Do you think of me?
Weapons can move silently
I miss you hard
It's been so rough
Can't fall asleep
And I, I can't get up

Stop lights
Don't think twice
About your rights
Stop lights
Don't think twice
About your rights

Don't be afraid
It's just the carousel of light and shade
Maybe I have never loved before
Maybe I'm the wolf that wanted more

Sometimes we're closer than we say
Sometimes we want it all to go away

Stop lights
Don't think twice
About your rights
Stop lights
Don't think twice
About your rights
Do you think of me?

Don't be afraid
It's just the carousel of light and shade
Maybe I have never loved before
Maybe I'm the wolf that wanted more
