

Everyone Is Broken

Bush

If I could write
A letter just to feel I'm not alone
If I could fight
The demons that are on my iPhone
If you were right
The ceiling on us all would be so low
If I was bright
I'd have left so long ago

Don't you think it's strange
All these feelings still remain?
We're ghost dancers
We dress our love in pain
You live to kill my name
We're ghost dancers

Everyone is broken
Sorry for my madness
I know I am invasive
They never came to save us
Everyone is broken
Everything in motion

If you could win
Tell me all the games you'd like to play
If you could sing
Tell me everything to make me stay
If you could change
What's the first thing you let go?
If we were brave
We'd tell each other what we know

Don't you think it's strange
All these feelings still remain?
We're ghost dancers
We dress our love in pain
You live to kill my name
We're ghost dancers

Everyone is broken
Sorry for my madness
I know I am invasive
They never came to save us
The kids have all spoken
We're swimming in an ocean
Happy to be floating
I try to stay open
Everyone is broken
Everything in motion

Rise where the river takes you
Kiss the sun so you come in bloom
Feel love, feel forgiveness
We all know you hurt too

Everyone is broken
Sorry for my madness

I know I am invasive
They never came to save us
The kids have all spoken
We're swimming in an ocean
Happy to be floating
I try to stay open

Everyone is broken
Hiding real faces
The truth is in the spaces
You live the life you make it
Everyone is broken
Everything in motion
Everyone is broken
Everything in motion

The kids have all spoken
