

I Am Here to Save Your Life

Bush

It's all on the inside
Keep your head in the right mind
I feel everything, I feel nothing at all
Can't see with my third eye
Hurt the ones that are close by
I know everyone, I know no one at all
I wish I was as good as I tried
I wish I felt more alive
Tell me where the wild things are

If you see Buddha, kill him
If you see God, you're tripping
Redemption is the song

Shame on you
Shame on you
Shame on you and the negative dancers

I'm here to save your life
I'm here so you think twice
We are people
We are people, tired of war
I wish I was as good as I tried
I wish I felt more alive
Tell me where the wild things are

If you see Buddha, kill him
If you see God, you're tripping
Redemption is the song

Shame on you
Shame on you
Shame on you and the negative dancers
Been so cruel
Been so cruel
Been so cruel, and I think you like it

I know where you've been, my love
I know where you've been
I know where you've been, my love
I know where you've been

Shame on you
Shame on you
Shame on you and the negative dancers
Been so cruel
Been so cruel
Been so cruel and I think you like it
But I know where you've been my love
I know where you've been

I am here to save your life
I am here to save
