

# Live Another Day

Bush

I'm not sure if I tried  
If I was on my best behavior  
Kill or be killed  
Or be excommunicated

Pieces of you  
Pieces of me  
Holding on like glue  
It's never-ending  
Seventeen challenges  
Seventeen challenges

Live another day (Live another day)  
Breath another breath (Breath another breath)  
Try one more time (Try one more time)  
Live another day, live another day

Walls don't seem to stop  
The criminal in braces  
And you tried to blind your mind  
For future generations

Pieces of you  
Pieces of me  
Crudest winds  
Have no fill gas, never thin  
Seventeen challenges  
Seventeen challenges

Live another day (Live another day)  
Breath another breath (Breath another breath)  
Try one more time (Try one more time)  
Live another day, live another day

Live another day (Live another day)  
Breath another breath (Breath another breath)  
Try one more time (Try one more time)  
Live another day, live another day

I was a wanderer  
I walked the night for days  
I feel down to earth  
I came up from the grave

I was a wanderer  
I walked the night for days  
I feel down to earth  
I came up from the grave

Live another day (Live another day)  
Breath another breath (Breath another breath)  
Try one more time (Try one more time)  
Live another day, live another day  
Live another day, live another day
