Our Time Will Come

Bush

See the river run dry
See we're savage inside
So much to hide

In this garden of lies
Heard the words went wrong
There's a battle cry

A smile for a smile
Or an eye for an eye
For an eye for an eye

Don't speak in tongues
Release your voice
We are what we believe
We have no choice
We all want a paradise

Our time will come
Time will come
Our time will come
Time will come

There's a killer on the run
And your eyes are wild
Like the wind in the trees
We got to survive

Don't speak in tongues
Release your voice
We are what we believe
We have no choice
We all want a paradise

Our time will come
Time will come
Our time will come
Time will come

Our time will come
Time will come
Our time will come
Time will come

See the river run dry
See we're savage inside
So much to hide
In this garden of lies

Don't speak in tongues
Release your voice
We are what we believe
We have no choice
We all want a paradise

Our time will come
Time will come

Our time will come
Time will come
Our time will come
Time will come

Our time will come
Time will come

Our time will come
Time will
