The Year Of Danger

Bush

I say don't go
Like this we know
You won't come here again
See this cycle
Pain disciples
Push and turn toward the edge

They try to hurt us
Slowly turn us into the zoo
We descend

We [?] you can't save me
I'll do my best never let them break me
Got so out of control

No time go slow
Don't let me go
To lose it on the shores of babylon
I miss your way
I wish I could pray
But I don't know who to call

They try to hurt us
Slowly turn us
Into the zoo we descend

We [?] you can't save me
I'll do my best never let them break me
Got so out of control

I've got you baby won't let you sink
I think you love me more than you think
It's lonely without you

I'm floating into space now
Space now
I'm floating into space now
Space now
All over you

I'm floating into space now
Space now
I'm floating into space now
Space now
All over you

This is the year of danger
There's a finger on the trigger
This is the time for me and you
This is year of the strangers
It's crazy what strangers will do

I'm floating into space now
Space now
I'm floating into space now
Space now
All over you

```
I'm floating into space now
Space now
I'm floating into space now
Space now
All over you
```
