

# This Is War

Bush

If you can see me  
You can save my skin  
I could trust you  
If you could see me within

Is this the way you see yourself?  
Is this the way you've never been wrong?  
Is this the way you work yourself?  
Is this the way you come undone?  
Is this the way you see yourself?  
Is this the way you've never been wrong?  
Is this the way you hurt yourself?  
Is this the way you come undone?

This is war  
This is the strange fruit  
This is the end of me  
This is the end of you  
This is war  
This is war

If you can free your mind  
If you could loose the chains that chain  
If you could walk through the mine fields of history  
What we came to be

Is this the way you see yourself?  
Is this the way you've never been wrong?  
Is this the way you hurt yourself?  
Is this the way you come undone?

This is war  
This is the strange fruit  
This is the end of me  
This is the end of you  
This is war  
This'll be televised  
This is how we live  
This is how we die  
This is war  
This is war  
No!

They can try to break you down  
Water beats rocks  
They can try to break you down  
Water beats rocks  
They can try to break you down  
Water beats rocks  
They can try to break you down

This is war  
This is the strange fruit  
This is the end of me  
This is the end of you  
This is war  
This'll be televised

This is how we live  
This is how we die  
No more war  
This is how we die  
No more war  
This is how we die

This is how we die  
This is war  
This is war  
This is war  
This is war
