

Water

Bush

I will always be yours
You stole my heart some time ago
Now in the madness of this winter
We wait for Spring to grow, yeah

Till the blossom blows
Till the blossom blows
Till the blossom blows

Got to be like water
Got to be like rain
Got to be myself again
No matter what you say

You will always be mine
Together or apart
Now we're dead forever
Nothing kills like covered hearts, yeah

Till the blossom blows
Till the blossom blows
Till the blossom blows

Got to be like water
Got to be like rain
Got to be myself again
No matter what you say
Got to be like water
Got to be like rain
Got to be myself again
I'm in an inner space

Breathe life into dead things
Breathe life into beauty, yeah

Got to be like water (When you can't see your enemies)
Got to be like rain (When your enemies can't see you)
Got to be myself again (When you can't see your enemies)
No matter what you say (When your enemies can't see you)

When you can't see your enemies
When your enemies can't see you
When you can't see your enemies

Got to be like water
Got to be like water
Got to be like water
Got to be like (water)
