

Words Are Not Impediments

Bush

If I give myself a time
To live so free of mind
I'll find the key to happiness
Upon my chest
If I let my guard down
Are you the one to trust
Are you the answer
To the questions I possess
Forever I remember you
I sense electric in the air
I see the fireworks for miles
They're coming for me now
Or maybe I'm just paranoid
Hey hey
Let's go to the other side
Hey hey
I feel so much alive
Hey hey
Do you hear what the punk says
Hey hey
Words are not impediments
Hey hey
Words are not impediments
If I do myself wrong
I hold on for too long
The trick to life it seems
How quickly that you're gone
Forever I remember you
Hey hey
Let's go to the other side
Hey hey

I feel so much alive

Hey hey

Do you hear what the punk says
Hey hey

Words are not impediments

Hey hey

Words are not impediments

When I'm with you I feel no pain
When I'm with you I feel no pain
When I'm with you I feel no pain

Hey hey

Let's go to the other side

Hey hey

I feel so much alive

Hey hey

Do you hear what the punk says
Hey hey

Words are not impediments

Hey hey

Words are not impediments
