

Do the Busabus Pt.2

Busta Rhymes

Well, alright, let's strike it up
Yes, yes, yes
Give me some folks up on the floor
So we can get down like, uh, we've done before
The name of my dance is called the Bus-A-Bus
Sure enough guaranteed to make you jump
Give me a clap right where you stand 'cause, uh
Once you get down like, uh, do it like you bad

When we clap, all y'all freeze
One more clap, do the Bus-A-Bus please (You remember)
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it (Let's go)

It's what it's 'posed to be
I'm here forever, stuck with me
Never worry as long as it's up to me
Pure heat, baby, is a must for me
Classic, bang it in your truck for me
All she wanna do is really suck to me
Put your champagne glass in your cup for me
We 'bout to bang out quick, you better jump for me
You better know what it is 'cause you could get it how you live
You suckers already know exactly what it is
This nothing, I got your shawty lovin' on the kid
Catch a body, damn, with everything I ever did
Classic killer, whole team heavy
Yellow door, AP diamond on my bezzie
Bad chick with her name tatted on her belly
Legendary with it, homie, you ain't really ready
Everything you doin', we done did the thing already
Still doin' it better, ain't nothin' you could tell me
Never mind, homie, everything about you petty
Chest cold bad, every diamond is canary
Like a classic flick, Godfather movie
Drag this mink, see him where I sent him
Catalog on, gotta bang hard
While I remind 'em, just follow instructions and I tell 'em, "Let's go"

When we clap, all y'all freeze
One more clap, do the Bus-A-Bus please
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it

Feel my presence, classic killer

From the last thread sewn in my fabric killer
Stay on fire, volcanic river
Killin' everything, it's a habit, shiv 'em
Everything about me is a priceless winner
Timeless giver, what you want?
We 'bout to bang out again like I put it in a coupe
'Til I hit it in the brain, what you doin?
Fireworks with it, homie, every time we do it
Gotta hurt, don't it, how we make 'em really lose it?
And you can't 'cause we beat the street up with the music
Think you nicer than a killer, well, you know you gotta prove it
Classic boy in the coupe, don sticker
In a Phantom, my shawty gotta move, so I'm sprintin'
OG feelin' like a newborn Richard
Sit up on a bag of money like a newborn winner
When we in the building, see, they feel a little threatened
The way your body hits you, you should really learn your lesson
No matter what you do, see, I'ma steal all the attention
Number one, why wait when you will always be a second?
Every time we get 'em and every time we hit 'em
Back to where you come from is where we gonna send em
Every time, I really gotta refresh in your memory
No matter what they sellin' me, just listen when I tell 'em, one time

When we clap, all y'all freeze
One more clap, do the Bus-A-Bus please
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it
One time, shake it out
Two times, smooth it out
Three times, get crazy with it
Four times, and let me see you do it
