

## E.L.E. 2 Intro

Busta Rhymes

Currently on Extinction Level Event 2  
Genesis Chapter 11, verses 1 through 9  
Thousands of years before Christ  
Tyrant nimrod, Gilgamesh of Shinar, enslaved the first empire  
One world language, one world religion  
One world warrior. We have learned nothing (One)  
Make the keys to heaven a gift to the devil  
Those who desire to supplant God  
Illuminati who attempt to horrify us as the most perfect angel Lucifer  
Seek to rebirth a new world order upon the flesh, blood, and bones of all humanity  
Again, towers rose skyward to challenge his divine glory  
To conquer his serene domain  
As an ancient Babylon, the one true Lord brought them down  
In 2001, three became not, conspiracy is reality  
Fear is the weapon of thine enemy  
Acts of terror align told to convince the meek to surrender to their rumors  
Atmospheric variances melt the polar ice caps  
And crown the rats that walk on two legs  
An incurable virus to decimate the dark, nuclear rain to set us aflame  
Obscured by a curtain of venom from space in the name of science  
Fall to your knees, pray to your last choking breath  
A new world order is here, arrogance over God means annihilation  
Daddy, what's it gonna be like in 2021?  
Only he can save us. This is the second coming  
Extinction Level Event 2

There's only five years left nigga  
There's only five years left nigga!  
There's only two years left nigga  
There's only one day left nigga  
It's the end of the world, motherfucker  
Shit, we right here with Busta Rhymes, motherfucker  
The baddest, the biggest  
He been doin' it for the longest, been doin' for the strongest bitch  
It's the end of the world, these are the last days  
This might be, this might be the last day  
And lucky you, on your last day  
You gon' hear the Busta Rhymes album, you lucky bitch

Well it's the God (Yes) no illusions  
Bless us while I greet y'all in the absence of confusion  
With science to spark the mind with thoughts of greater living  
It gets deeper than secrets of Masonic symbolism  
And I understand if you can find it extremely hard to calculate it  
As a dude who refer to himself as God, let me demonstrate it  
You don't get it at first, revisit it later  
But in the meantime, let's examine the difference in our nature  
As in lovin' or hateful, patriotic or rebel  
Positive or negative, or in God and the devil  
It's been debated for years, let's acknowledge the magic  
While some embrace the jewel, others'll witness it as tragic  
But I'm addicted to exposing the truth, it's a habit  
Since a youngin' using a pencil to write them mathematics  
Incorporating the science while I give you the classics  
While some will find it strange and resort to measures that's drastic  
I articulate with clarity and reassurance when you hear this

Some identity me as cuckoo or conspiracy theorist  
Some might call me crazy 'cause at times my life seems out of order  
Thus possessin' angels to the total of square mileage of land and water  
Go get your recorder 'cause even on my worst day  
When I'm lifting the weight on my shoulder  
I could tell you what the Earth weigh  
Let me listen to the wind so I can hear the Earth begin  
The universe speak round the celebration of my birthday  
That being said, we can stop pretendin' that I'm mental  
Like all the shit we witnessed be happenin' coincidental  
See back in '98 when I dropped the first Extinction Level  
I was fightin' inner demons with personal scores to settle  
They put it in a movie 'cause they knew that we ain't really know  
Funny how they tried to tell us 22 years ago  
What deeply impacted how watchin' a flick really moved me  
As the world was ending, Morgan Freeman was praising the movie  
So, let's fast-forward to 2009  
And 2012 when we left an impression on the minds  
Of the people makin' sure we remember if we slightly doubted  
That the world was ending that we can't really do shit about it  
Damn, funny when I saw the flick, it did amuse me through  
To the point that Danny Glover was praisin' the movie too  
Then I questioned why they iteratin' the same plot  
Should we be a little para' now that they gave us Barack?  
In 2020, the message I'm sending  
Now that my president gone, how convenient the world has ended

I tried to warn 'em with The Seventh Seal  
The world is wounded, it may never heal  
Even Mother Nature's gettin' ill, it's gettin' real  
When millions get killed when that daily weather spilled  
Until Sodom and Gomorrah's on America's turf  
The horror, it'll forever get worse  
Yet and still, it's like a gift at birth then you inherit a curse  
But the meek must inherit the Earth, it's Heaven's will  
Meek meaning powerless in the form of politics  
Giving power at the dawn of the apocalypse  
The war stronger than peace  
It's poverty to the majority, a scar with the mark of the beast  
So the righteous prevail to work miracles  
Prepare to weather you through the unbearable and reverse the inevitable  
You find you a sin, remind you of when  
Back when God lived in Man and that time is again  
Signs of the end, read Mark chapter 13  
And Daniel chapter 12, understand you wrapped in hell  
Revelations show the facts as well  
Then read Prophets in the Quran and ask yourself  
Do you rep a nation revved for hatin'?  
Judgement Day ain't far, don't get left debatin'  
'Cause what they thinkin' is the end of creation  
Is actually the reincarnation of Gods, the death of Satan

Somethin' just to think about a little bit, you know  
As I continue to bring y'all to a place where  
We remind you how special it is to have  
A good balance of science, and a good balance of heat  
Classic shit, as I continue to give you that food  
Feast on this full course meal, as I welcome you all  
To "Extinction Level Event 2", easy  
Who's world is this? It's mine, It's mine, It's mine  
Who's world is this? It's mine, It's mine, It's mine  
Who's world is this?  
I believe the world belongs to the people

It has always belonged to the people  
To the powers that be  
Fuck your plague and your disease and your sickness  
That you have inflicted on so many lives  
Since the beginning of time and through colonization  
Fuck your systematic oppression, the systematic racial oppression  
As a matter of fact, fuck you
