And you lookin' like a fly piece hun
So when I leave this party you leavin' behind me (Hun)
I heard girls just wanna have fun (Have fun)
Why you think I'm here to find me one (Me one)
And you lookin' like a fly piece hun
So when I leave this party you leavin' behind me

Yup, yup, yup yup it's your boy miss
And I'm lookin' for a little thing to toy with
I know you heard these words before but you gorgeous
But still it sound better comin' out the don' mouth
I wouldn't mind touchin' that thing under your long blouse
Psych I'm just playin' I won't travel the wrong route
But I'm the dude that can go in so hard
I'm statue stiff ma, peanut butter thick love
Yeah, and I'm a hard act to follow
Handsome and you got it goin' on like the motto
You ball like the lotto
Somethin' every brother would love to hit
And I just wanna love your lips, aw
Type of lips I would love to kiss all night
Even with' your mornin' breath boo that's alright
And my man told me that you a gold miss
And all the things you capable of doin' with those lips
I heard through the grapevine you came with some hoes
But you steady tellin' me them just some bitches you know
You know?

Girl you so fine (So fine) you so thick (So thick)
You wanna slow grind, think you so slick
I already heard about you, you a gold miss (Gold miss)
And all the great things you can do with those lips (Those lips)
Girl you so fine (So fine) you so thick (So thick)
You wanna slow grind, yeah you think you so slick (So slick)
I already heard about you, you a gold miss (Gold miss)
And all the great things you can do with those lips

Girl your face is so great but your sex is so lame
Sorta no frills like fools with' no names
You worthless, zero cents mami your no change
Only reason why I came to see you is for brains
And those lips, her mouth is voluptuous
You should see the way she sucked the tip, uh
She had another cute friend behind her
Said she loved the Tar Heels, she from Carolina
Thought shawty was a minor
But once I got it back to the crib baby took it deep inside her
Then she, said "I love you Reek", I'm like shawty lean back

Must've just smoked some mean crack
Not love but I like you a lot believe that
And all the things you do with those lips I need that
Matter of fact shut your mouth baby girl just ease back
And kiss this little thing that look like a lean bat
Damn you might be my future wife
But for now just before I'm [?] alright
