

Easy

Busted

Thought I saw an opening
Thought that I was closing in
So I started hoping then
And even though I had a doubt
Thought that we could work it out
All I ever thought about
No fun when you're the only one
Love drunk when the others sober
No moon when the day has gone
No sun when the night is over

And I wish it were
A little more easy
But your hard to get
When all you do is tease me
Cause I'll never know
Exactly how you see me
But I wish you well
And goodbye is never easy
Easy

If I could do it all again
Would I do it all again
Or would I do it different
Cause maybe in another life
You and I can get it right
Or would I be alone at night
No fun when you're the only one
Love drunk when the others sober
No moon when the day has gone
No sun when the night is over

And I wish it were
A little more easy (easy)
But your hard to get
When all you do is tease me
Cause I'll never know
Exactly how you see me (see me)
But I wish you well
And goodbye is never easy

Love drunk when the others sober

And I wish it were
A little more easy (easy)
But your hard to get
When all you do is tease me
Cause I'll never know
Exactly how you see me (see me)
But I wish you well
And goodbye is never easy
Oh I wish you well
But you know goodbye is never easy
