

## Good One

Busted

It's been the greatest time but it's time we've borrowed  
We've got our separate ways to go, wish I could follow  
So make it a good one and I'll see you again  
Make it a good one and I'll see you, my friend

It's such a bitter taste, so hard to swallow  
I'm gonna miss that face when I'm home tomorrow  
So make it a good one and I'll see you God knows when  
Make it a good one and I'll see you, my friend

And as we drift apart back to the start  
And as we drift apart into the dark  
I'm gonna keep you here safe in my heart  
I'll always keep you here safe  
So make it a good one and I'll see you again  
Make it a good one and I'll see you, my friend

So make it a good one and I'll see you again  
Make it a good one and I'll see you, my friend

I love the way we crash into each other  
But we all turn to dust one day, my brother  
So make it a good one and I'll see you again  
Make it a good one and I'll see you, my friend

And as we drift apart back to the start  
And as we drift apart into the dark  
I'm gonna keep you here safe in my heart  
I'll always keep you here safe  
So make it a good one and I'll see you again  
Make it a good one and I'll see you, my friend

(And I'll see you, my friend)

So make it a good one and I'll see you God knows when  
Make it a good one and I'll see you, my friend
