

Nostalgia

Busted

It's been some time
I don't know why
We let it die
Where's the white flag?
Was it so bad
Those times we had?

Nostalgia, in the back of my mind
When I was doing just fine without ya
We still in love
Or is it just nostalgia?
The best I ever had
Nothing was better than that
Do I even want you back?
Or is it just nostalgia?

Your fingers snap
Mind fades to black
I come right back
Your toothpaste smile
Hurt for a while
Comes back in style

Nostalgia, in the back of my mind
When I was doing just fine without ya
We still in love
Or is it just nostalgia?
The best I ever had
Nothing was better than that
Do I even want you back?
Or is it just nostalgia?

I was doing just fine
I was doing just fine
I was doing just fine
I was doing just fine
I was doing just fine
I was doing just fine

Nostalgia, in the back of my mind
When I was doing just fine without ya
We still in love
Or is it just nostalgia?
When we were a team
Now every night is a dream about ya
We still in love
Or is it just nostalgia?
The best I ever had
Nothing was better than that
Do I even want you back?
Or is it just nostalgia?
