

On What You're On

Busted

I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on

She's got a wild heart
Born to run, born to come and just save my soul
I never thought it was worth saving
She's tapped into something and I wish I could feel it
But I don't know what it is and I can't quite believe it

Are we dancing, are we dancing, are we dancing to the same song
I wanna know, I wanna know, wanna know what you're on

I wanna be on what you're on
I wanna be gone like you're gone
I wanna be on what you're on
We'll be dancing, we'll be dancing, we'll be dancing to the same song

I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on

She has a kind heart
Kind enough to take the time to come save my soul
I'm so over misbehaving
She's optimistic 'bout the future of our planet
And the smile that's on her lips, oh, it must be the Xanax

Are we dancing, are we dancing, are we dancing to the same song
I wanna know, I wanna know, wanna know what you're on

I wanna be on what you're on
I wanna be gone like you're gone
I wanna be on what you're on
We'll be dancing, we'll be dancing, we'll be dancing to the same song

I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on

Yeah, we're standin' on the same cloud
And we're never comin' down
Yeah, we're standin' on the same cloud
No, we're never, no we're never, ever comin' down

I wanna be on what you're on
I wanna be gone like you're gone
I wanna be on what you're on
We'll be dancing, we'll be dancing, we'll be dancing to the same song

I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on
I wanna be on what you're on
