

One of a Kind

Busted

I can't do nothing I've fallen
I'm in a world of make believe
Can't stop the feelings I'm feeling
Because of what you do to me
I don't know what to say I'm in an empty stare
I try to think of something but there's nothing there

In my mind, you're one of a kind
It feels like, love at first sight
You're one of a kind, (one of a kind)
And you know, you know, you know, you got it
(One of a kind)
And you know, you know, you know, I want it

You're so above it I love it
I've got to have you next to me
That you'll be gone in a minute
And only be a memory
I wanna break the silence like I think I should
I got to do it now before you're gone for good

In my mind, you're one of a kind
It feels like, love at first sight
You're one of a kind, (one of a kind)
And you know, you know, you know, you got it
(One of a kind)
And you know, you know, you know, I want it

(Losing my mind, all this time...)
I wanna break the silence like I think I should
I got to do it now before you're gone for good

In my mind, you're one of a kind
It feels like, love at first sight
You're one of a kind, (one of a kind)
And you know, you know, you know, you got it
(One of a kind)
And you know, you know, you know, I want it
