

# Reunion

**Busted**

It's been a while but we're back again  
With everyone of our sixth form friends  
And how the hell do you look the same  
Tell you the truth you're the only reason I came  
With canapes and Tears For Fears  
Under a banner says it's been ten years  
They always play the same damn songs  
I never planned on staying here so long

Ditch this reunion  
It's our reunion  
Just here for you again  
Just here for you again

I wanna hear about the last ten years  
So much has happened since you disappeared  
If I still could  
Then I still would  
God only knows  
So many things I wish I'd said back then  
Can we get outta here and go somewhere  
If I still could  
Then I still would, yeah

So many things to talk about  
Our different lives how they turned out  
You know I never liked this place  
It got me through the day just seeing your face  
The way you look, the way you glow  
It doesn't matter where I go  
No matter who I bump into  
It always leads me back to you

Ditch this reunion  
It's our reunion  
Just here for you again  
Just here for you again

I wanna hear about the last ten years  
So much has happened since you disappeared  
If I still could  
Then I still would  
God only knows  
So many things I wish I said back then  
Can we get outta here and go somewhere  
If I still could  
Then I still would, yeah

I wanna hear about the last ten years  
So much has happened since you disappeared  
If I still could  
Then I still would  
God only knows  
So many things I wish I said back then  
Can we get outta here and go somewhere  
If I still could  
Then I still would, yeah
