

Those Days Are Gone

Busted

Tide comes in, rolls right out
And all I can think about
Where you are? Where you've been?
Do you still remember anything?

Well it's hard just to...

Say goodbye to the times we had
All the summers spent together
Now we leave it all behind
Sooner or later when the winter comes
I will picture us together in my mind forever
I will be holding on
Oh well those days are gone
Yeah

I'm on my way, it's been too long
But I see your face in everyone
It's a lonely place, without you here
I wish that you would just reappear, yeah

But I won't wanna...

Say goodbye to the times we had
And the summers spent together
Now we leave it all behind
Sooner or later when the winter comes
I will picture us together in my mind forever
I will be holding on

But those days are gone
But those days are gone

But those days are gone
Cause it's hard just to...

Say goodbye to the times we had
All the summers spent together
Now we leave it all behind
Sooner or later when the winter comes
I will picture us together in my mind forever
I will be holding on

But those days are gone
Yeah but those days are gone
But those days are gone
Yeah
