

## Those Days Are Gone

Busted

Tide comes in, rolls right out  
And all I can think about  
Where you are? Where you've been?  
Do you still remember anything?

Well it's hard just to...

Say goodbye to the times we had  
All the summers spent together  
Now we leave it all behind  
Sooner or later when the winter comes  
I will picture us together in my mind forever  
I will be holding on  
Oh well those days are gone  
Yeah

I'm on my way, it's been too long  
But I see your face in everyone  
It's a lonely place, without you here  
I wish that you would just reappear, yeah

But I won't wanna...

Say goodbye to the times we had  
And the summers spent together  
Now we leave it all behind  
Sooner or later when the winter comes  
I will picture us together in my mind forever  
I will be holding on

But those days are gone  
But those days are gone

But those days are gone  
Cause it's hard just to...

Say goodbye to the times we had  
All the summers spent together  
Now we leave it all behind  
Sooner or later when the winter comes  
I will picture us together in my mind forever  
I will be holding on

But those days are gone  
Yeah but those days are gone  
But those days are gone  
Yeah
