

Thunderbirds Are Go

Busted

Spring breaks come around
And there's more heroes to be found
There's something major going down
On Tracy island
Weapons underground
Keeping our planet safe and sound
If someone evils coming round
We should be frightened
Coz now the boys are back in town
No strings to hold them down,down

Don't be mad
Please stop the hating
Just be glad that they'll be waiting
Friends we have
Are ever changing
You know,now the lids about to blow
When the thunderbirds are go

Kids are learning fast
They know the T-birds kick some ass
Be sure that there's no coming last
If you're on their side
It always looks so cool
When Spaceships come out of the pool
You know that you'd just be a fool
To be a bad guy
Coz now the boys are back in town'
No strings to hold them down,down
Thunderbirds are go
