

## THIS IS THE PART

Butcher Babies

This is the part where I walk away  
Cause nothing lasts forever  
We've just run out of time  
This is the part where I walk away  
I should have seen it coming  
I'm taking back what's mine

You can't be sure (Nothing lasts forever)  
And I can't be yours (Nothing lasts forever)  
To complicate the score  
I'm moving slow, and now I'm sure

So rain again on my parade  
This is getting old this masquerade  
I'll fall away to escape your betrayal  
Another day without your shadow  
Nothing lasts forever

This is the part where I hang my head  
I've been left with nothing  
I'm not sure that I'll be fine  
This is the part where I take the blame  
And cut myself away from  
The truth inside the lies

You can't be sure (Nothing lasts forever)  
And I can't be yours (Nothing lasts forever)  
To complicate the score  
I'm moving slow, and now I'm sure

So rain again on my parade  
This is getting old this masquerade  
I'll fall away to escape your betrayal  
Another day without your shadow

Rain again on my parade  
This is getting old this masquerade  
I'll fall away to escape your betrayal  
Another day without your shadow  
So rain again on my parade  
This is getting old this masquerade  
I'll fall away to escape your betrayal  
Another day without your shadow  
Nothing lasts forever
