

Don't Look Now

Butterfly Boucher

Have I have I let the one I love
Turn away and leave real lie
Would ever really know if I never let you go
And why has it have to hurt so much
When I miss your touch
Don't look now something in my heart is not right
Don't leave now I don't want to hold you back
You made your move didn't have to be make
Something I will be ok have i
Have I lost the one I love all because I just don't know
Any more will I really know if I never let you go
Don't leave now something in my heart is not right
Don't leave now I don't want to hold you back
You made your move didn't have to be make
Something I will be ok I was wrong
I was wrong
What is gonna take to find ..
Why does it have to hurt so much
Has it have to hurt so much
Don't leave now something in my heart is not right
Don't leave now I don't want to hold you back
You made your move didn't have to be make
Don't leave now something in my heart is not right
Don't leave now I don't want to hold you back
Don't leave now something in my heart is not right
Don't leave now I don't want to hold you back
You made your move didn't have to be make
Something I will be ok I was wrong
I was wrong
Have I made a big mistake
Have I lost the one I love
