

Unashamed Desire

Butterfly Boucher

I've nothing to hide

Empty all my pockets and take what you like
Empty all my pockets if you like
I've nothing to hide

Empty all my pockets and take what you like
Empty all my pockets if you like
I've nothing to hide

My unashamed desire
Unashamed desire
Is an open fire
And I'm not afraid to love
Not afraid to love
Unashamed desire

Open up my chest and take what you like
Open up my chest if you like
I've nothing to hide

Open up my heart and turn on a light
Open up my heartache if you like
I've nothing to hide

My unashamed desire
Unashamed desire
Is an open fire
And I'm not afraid to love
Not afraid to love
Unashamed desire

We get one sweet moment in the arms of youth
I don't want to waste time holding down the truth
I got everything to win and only pain to lose
This is my unashamed desire

Unashamed desire
Unashamed desire
Unashamed desire
