

All Gone To War

Buzzcocks

Shattered dreams and fairy tales
In a world where humans fail
Messed-up minds inside a jail
'Cause they've all gone to war
All gone to war

Sparks and flames fly in the night
Little girl in a state of fright
Bricks and stones from out of sight
'Cause they've all gone to war
All gone to war
All gone to war
All gone to war

Leaving now for another world
Leaving now for another world
Leaving now for another world
Gone without a trace

'Cause they've all gone to war
All gone to war
All gone to war
All gone to war

Now, I'm standing on a grave
Many people can't be saved
Gone to flowers, cast unnamed
'Cause they've all gone to war
All gone to war
All gone to war
All gone to war
All gone to war
All gone to war
All gone to war
All gone to war
