

Can Your Hear Tomorrow

Buzzcocks

Tried to understand the land that got me running
But there was a bigger plan
Listened to the sound, I didn't see it coming
Realised it's out of my hands

Television man (said it's alright)
Sound of a gun (in the morning light)
Politician says (what's wrong and right)
I'm in the middle
Yeah, can you hear tomorrow?

Feel something starting
Old centre parting coming away at the seams
Thought there was a future
All that I got there was old utopian dreams

Television man (said it's alright)
Sound of a gun (in the morning light)
Politician say (what's wrong and right)
I'm in the middle
Yeah, can you hear tomorrow?

Can you hear tomorrow?
Can you hear tomorrow?
Can you hear tomorrow?
Can you hear tomorrow?

Television man (said it's alright)
Sound of a gun (in the morning light)
Politician says (what's wrong and right)
I'm in the middle
Yeah, can you hear tomorrow?

Television man (said it's alright)
Sound of a gun (in the morning light)
Politician says (what's wrong and right)
I'm in the middle
Hey, can you hear tomorrow?

Can you hear tomorrow?
Can you hear tomorrow?
Can you hear tomorrow?
Can you hear tomorrow?
