

Darker By The Hour

Buzzcocks

Behind every cloud lies a nightmare, [?] reaping what has been
sowed

Swallow my feelings in silence, left all alone

Now, the future's getting darker by the hour

Come tomorrow, will we ever even care?

Wearing a red badge of courage, torn between hope and despair

Release all this pain within me, it's going nowhere

Now, the future's getting darker by the hour

Come tomorrow, will we ever even care?

Now, the future's getting darker by the hour

Come tomorrow, will we ever even care?

Ever really care, ever really care

Ever really care, ever really care

Ever really care, ever really care
