

Don't Mess With My Brain

Buzzcocks

Don't mess with my brain
Sixty-five million going insane
Fever is high, feelings are low
Gazing out the window, but there's nowhere to go
You bet ya

Don't mess with my brain
Sixty-five million going insane
Things you can't see, hard to explain
Staring at the sunrise again and again
You bet ya

Don't mess with my brain
Sixty-five million going insane
Mountains are high, fountains they blow
Looking for an answer that nobody knows
You bet ya

Don't mess with my brain
Sixty-five million going insane
Elephants eye, room is no go
All the wheels are turning, but the time is too slow
You bet ya

Don't mess with my brain
Don't mess with my brain
Don't mess with my brain
Don't mess with my brain
My brain, my brain...
