

Generation Suicide

Buzzcocks

All the records and the CDs and the books are gone
All the signs in your mind are defined again

Generation suicide, something lost you deep inside
Generation suicide, something lost within your mind today

All the pubs and the clubs all closing down
All the venues have new menus, it's a different town

Generation suicide, something lost you deep inside
Generation suicide, something lost within your mind today

Generation, generation, generation suicide
Generation, generation, generation suicide

Generation suicide, something lost you deep inside
Generation suicide, something lost within your mind today

Generation, generation, generation suicide
Generation, generation, generation suicide

Generation suicide, something lost you deep inside
Generation suicide, something lost within your mind today

Generation suicide
Generation suicide
Generation suicide
Generation suicide
Generation suicide
You want another? Sure
