

## In the Back

Buzzcocks

Everything's worked out so well  
What is worth is what you can get  
It's a game with all your needs  
To be here and there, and yet

In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind

Yesterday came too soon  
Another day just disappeared  
Everything's not what it seems  
And what you give is what you get

In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind

In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind

I [?] in the back of my mind  
I see someone in the back of my mind  
I feel desperate in the back of my mind  
I see solutions in the back of my mind

In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind  
In the back (In the back), back of my mind

In the back (In the back)  
In the back (In the back)  
In the back (In the back)  
In the back (In the back)  
In the back (In the back)  
In the back (In the back)
