

## Never Believe It

Buzzcocks

In spite of what I say to you, you never believe it  
Especially what I try to do, you never believe it  
You never believe it, how can I entreat this to you?  
You said that you're not coming back, I couldn't believe it  
You near gave me a heart attack, you wouldn't believe it  
You wouldn't believe it, how can I believe what's not true?

Of all the things to do  
I had to end up took with you  
Though I see your face  
You're like a monster from another place

You say that you're not coming back, I couldn't believe it  
You near gave me a heart attack, you wouldn't believe it  
I couldn't believe it, how can I entreat this to you?  
In spite of what I say to you, you wouldn't believe it  
Especially what I try to do, you never believe it  
You never believe it, how can I believe what's not true?

Of all the things to do  
I had to end up stuck with you  
Though I see your face  
You're like a monster from another place

I know, I must seem a sucker for your lies  
(I couldn't believe it, you wouldn't believe it)  
But, I just love the faraway look in your eyes

Of all the things to do  
I had to end up stuck with you  
Though I see your face  
You're like a monster from another place

I know, I must seem a sucker for your lies  
(I couldn't believe it, you wouldn't believe it)  
But, I just love the faraway look in your eyes

All the things to do  
I had to end up stuck with you  
Though I see your face  
You're like a monster from another place  
Of all the things to do  
I had to end up stuck with you  
Though I see your face  
You're like a monster from another place
