

See You Through

Buzzcocks

If I could see through you
Do what you want to do
But you ain't got a clue
If I could see through you

If I could find a way
Just to make you stay
But you don't play that way
If I could find a way

Look into your life like a mirror
Backs against the wall, it's a never-ending story, yeah

If I could see through you
Do what you want to do
But you ain't got a clue
If I could see through you

If I could find a way
Just to make you stay
But you don't play that way
If I could find a way

Looking deep inside into the future
Backs against the wall, it's a never-ending story, yeah

If I could find a way
Just to make you stay
But you don't play that way
If I could find a way

If I could see through you
If I could see through you
If I could see through you
If I could see through you
