

## The Way

Buzzcocks

It happens right before your eyes  
But still, it takes you by surprise  
You see and watch it on TV  
I even saw it on a documentary  
Ignorance kills, it's a clash of wills  
No panacea's gonna cure your ills  
I'm feeling kind of indiscreet  
Patience is bitter, its fruit is so sweet

So keep a straight face and look me in the eye  
And say you wouldn't take this from any other guy  
I haven't got the time to spare  
The way you are's not the way you were

Uninspired, I'm sick and tired  
You're hyperactive, totally wired  
Stay with me and we could have some fun  
After all, we're answerable to no-one  
Cyber porn from dusk till dawn  
Nowhere to hide from the suicide bomb  
Outside forces come inside to play  
You wouldn't even treat a dog that way

So keep a straight face and look me in the eye  
And say you wouldn't take this from any other guy  
Besieging castles in the air  
The way you are's not the way you were  
The way you are's not the way you were  
The way you are's not the way you were  
The way you are's not the way you were

So keep a straight face and look me in the eye  
And say you wouldn't get this from any other guy  
I haven't got the time to spare  
The way you are's not the way you were

So keep a straight face and look me in the eye  
And say you wouldn't take this from any other guy  
Besieging castles in the air  
The way you are's not the way you were  
The way you are's not the way you were  
The way you are's not the way you were  
The way you are's not the way you were
