

Bite The Bullet

BWO

Driving in my car down the avenue
Looking for a race that I can pursue
Get the party started get it on uh oh uh ooh
I can see a spark flashing in your eyes
I could need your hand boosting my supplies
Get the party started bang a gong uh oh uh ooh.

Now it's time to wind it up
The night has just begun
I'm tripping the light fantastic
I'm tripping with you.

At the front of the line
Got to fight get it right make you mine
I'm gonna bite the bullet
I'm gonna bite the bullet.

At the front of the line
Got to fight get it right make you mine
I'm gonna bite the bullet
I'm gonna bite the bullet.

We can take a ride to the cosmic race
We can shoot the care into outer space
Get the party started get it on uh oh uh ooh.

Nothing gonna stop us now
The flight is too much fun
I'm tripping the light fantastic
I'm tripping the sound bombastic

Now it's time to wind it up
The night has just begun
I'm tripping the light fantastic
I'm tripping with you.

At the front of the line
Got to fight get it right make you mine
I'm gonna bite the bullet
I'm gonna bite the bullet.

At the front of the line
Got to fight get it right make you mine
I'm gonna bite the bullet.

At the front of the line
Got to fight get it right make you mine
I'm gonna bite the bullet
I'm gonna bite the bullet.

At the front of the line
Yeah, gonna make you mine
I'm gonna bite the bullet
I'm gonna bite the bullet.
