

Haunted

BWO

I've got power in my rocket
I've got diesel in the tank
Calculations in my pocket
Coordinations call the rank
On the left we're passing Venus
On the right we circle Mars
Ooh oh oooh oh oh haunted by your love

I'm the center of attention
Reignite electrolyte
Front a spaceship intervention
With destructive appetite
You'll be heading for the exit
When I blow this town apart
Ooh oh oooh oh oh haunted by your love

Come come to my space paradise
Look at my hi-tech device
You're hypnotized

I'm a golden supernova
You're my silver satellite
Ooh oh oooh oh oh haunted by your love

Come come to my space paradise
