

# Save My Pride

BWO

I save my pride for love  
Oh o-o-oh  
Oh o-o-oh  
I save my pride for love

Ever since the day of grace when I was born  
Even through the nights I thought my heart was torn  
I would always stand there right beside you and save my pride for love

Like when you face a broken heart to mend  
Like when you share a love you must defend  
Let me be the one who's there to guide you, I save my pride for love

(A-ah) Flying high, here comes stormy weather  
(A-ah) Hold on tight, we're in this together  
(A-ah) Through the skies we travel forever, across the universe

I save my pride, oh o-o-oh  
I save my love, oh o-o-oh  
In the night I cross the ocean to save my pride for love

I save my pride for love, oh o-o-oh  
I save my love, oh o-o-oh  
In the night, a strong devotion, I save my pride for love

When you're ready for the future, come what may  
When you're ready for the life we start today  
Let me be the one who's there to guide you, I save my pride for love

(A-ah) Flying high, here comes stormy weather  
(A-ah) Hold on tight, we're in this together  
(A-ah) Through the skies we travel forever, across the universe

I save my pride, oh o-o-oh  
I save my love, oh o-o-oh  
In the night I cross the ocean to save my pride for love

(A-ah)  
(A-ah)  
(A-ah)

I save my pride (I save my pride)  
I save my love (I save my love)  
In the night I cross the ocean to save my pride for love

I save my pride (I save my pride), oh o-o-oh  
I save my love (I save my love), oh o-o-oh  
In the night I cross the ocean to save my pride for love

I save my pride, I save my pride, I save my pride for love  
I save my pride, I save my pride, I save my pride for love

I save my pride, oh o-o-oh  
I save my love, oh o-o-oh  
In the night I cross the ocean to save my pride for love

A-a-a-a-a-a-a-ah

I save my pride for love
