Can you feel the fire in my blood  
Don't you know my heart was torn apart.

The sonic polluting the tough executing  
The club is on fire the mood is on top  
Tonight we go crazy the fire goes hazy  
You share my desire the only way's up  
We've got ammunition for our expedition  
This is our volition we move to the front  
We go meteoric the night is euphoric  
We chase the historic hunt.

Can you feel the fire in my blood  
Can you see the thunderbolt  
Don't you know my heart was torn apart
